

Mubasher Sharia Compliant Prudent Strategy

As of 5/31/2017

Investment Strategy

The Sharia Compliant Prudent Investment Strategy from Mubasher is designed for Cautious investors who wish to invest in a range of high quality sharia compliant mutual funds. The returns subject to market conditions are expected to be higher than those offered by deposit accounts and give better protection against inflation. Based on the market historical returns; The fluctuation of values from one year to the next should be low but could still be negative in a small minority of years. Returns, if higher in other years are expected to compensate for such falls.

The performance illustration shown do not indicate guaranteed returns and is only an example of what the performance of the Strategy would have been had it been operated for the past 5 years.

The performance assumes semi-annual rebalancing and that the constituent funds were not changed over the period.

The benchmark is a Morningstar category average of Cautious allocation portfolios which typically have 20% to 50% of assets in equities and 50% to 80% of assets in fixed income and cash.
